Hi Stacey,

That is the correct formula. Those are not the rolling averages I have in our big spreadsheet. Let me verify with paper copies and get back to you.

Thanks so much Amber! I have one question. The formula that Harry gave me for the rolling average would equate to  $FY17 \text{ rolling average} = ((FY13 \text{ rolling average} + FY14 \text{ rolling average})/2 + FY15 \text{ actual student count})/2$ . So the numbers that I have based on the GaDOE reports would be  $((174.5 + 173.91)/2 + 155)/2 = 164.6$

FY13 rolling average- 174.5  
 FY14 rolling average- 173.91  
 FY15 actual student count- 155

Did the formula change? or am I doing something wrong? Thanks so much for your help! I very much appreciate the time you have taken to help us with this!

Please see the attached *DRAFT* GNETS allocations for FY17, with the rolling average included. I do want to stress that these are draft allocations only, and are being sent to assist you in planning for the upcoming year.

Please let me know if you have any questions.
